 Graduate School of Advanced Integration Science
 Doctoral Program for International Frontiers
 April 2016 Admission (2nd Selection)
 October 2016 Admission (1st Selection)

The Graduate School of Advanced Integration Science opens a specialized doctoral program, Doctoral Program for International Frontiers, at Department of Nanomaterial Science, and Department of Image and Materials Science, and invites applications for this Doctoral Program, as outlined in the table below.

The doctoral Program for International Frontiers has been established in cooperation with Global Center-of-Excellence (COE) Program, “Advanced School of Organic Electronics”. The program will provide education based on global excellent research and international education at laboratories and seminars abroad as well as in Chiba University. The program will cultivate the ability and potential of the graduate students both in basic and applied fields based on the various values as well as on deeper knowledge of fundamental science. It is possible for them to obtain the degree by taking the subjects and completing a doctor’s dissertation in English. The financial support of living for the graduate students is offered by employment as research assistants (RA) on a global standard.

Please visit our website at Chiba University and also the Graduate School of Advanced Integration Science. You can view Admissions Policy of every department in ‘Guide Book of Graduate School of Advanced Integration Science’, in addition to those of the university and the Graduate School.

Before applying, please contact a supervisor in the education and research field that you wish to choose, and inquire about the content and others, of the related education and research so as to confirm your choice.

Various Support Programs

Below, the various support program possibilities are listed. Contact your desired supervisor about the detailed information and procedures.

- ① Financial aid by employment as Research Assistants (RA)
- ② Dispatch abroad for research by International Shuttle Program and financial support for traveling expenses
- ③ Student Dormitory Rental System
- ④ Exemption from enrollment fee and tuition fee, and scholarships
- ⑤ Temporary loan system by Chiba University
- ⑥ Guarantor system by Chiba University

The detailed information will be sent:

- promptly by EMS or a simple registered mail with the Notification of Acceptance, for April 2016 Admission applicants accepted.
- in early September 2016 by EMS or a simple registered mail, for October 2016 Admission applicants accepted.

(2) Expenses

■ Enrollment Fee: 282,000 yen (Current Chiba University Graduate Students do not need to pay the enrollment fee.)

■ Tuition Fee: 260,400 yen/each semester (annual tuition: 520,800 yen)

- (1) Applicants of April Admission should pay the tuition for Spring semester in May, and those of October Admission should pay it for Fall semester in November, by a Standing Order, *Koza Hikiotoshi* which is available in the banking systems. But from the following semester, it should be paid in April for every Spring semester, and in October for every Fall semester, by a Standing Order, *Koza Hikiotoshi*. The detailed information on a standing order, *Koza Hikiotoshi* will be given at the time of the entrance procedure.

- (2) If the tuition or others be revised, the new tuition or others will go into effect as of the time of the revision.
- (3) There is a system by which the enrollment fee and tuition may be waived.
For details, please visit the following website.

10. Completion Conditions

A term required to complete the doctoral program is three years. It is the necessary conditions to complete the Program that you must be registered for three years or more, and also take fourteen credits or more which are provided by the Graduate School of Advanced Integration Science, and pass the both the inspection of a doctor's dissertation and the final Examination.

11. Early Completion

A student may shorten the period required to complete the doctoral program to a minimum of one year if the student has achieved exceptional research results while enrolled in the program or if the student, through his/her employment, etc., already possesses research achievements that are at least the equivalent of those required to complete the Program in three years.

12. Night Lecture Program

In the Graduate School of Advanced Integration Science's doctoral program, students may, if it is deemed especially necessary for their education, take lectures and conduct research at night or at other appropriate times.

Applicants wishing such an arrangement should consult in advance with a supervisor in their educational field and then expressly state those wishes in their application for admission.

13. System for Long-Term Completion

For individuals who, because they are employed, etc., are restricted in the number of units they can obtain, and in the time that they can devote to receiving research guidance, over the course of a year or a semester, and who therefore believe that they cannot complete this program unless they remain in it for longer than the standard number of years required to complete it (three years), there is a system whereby they can obtain a degree if they apply for an extension, are judged by the university to merit it, and then methodically complete the program over a period of up to six years.

Regarding the tuition of individuals thus recognized as long-term students, the total amount of tuition fees for the three years (six semesters) usually required to complete the program will be divided by the number of years that the student remains in the program and payment required in yearly installments.

Applicants wishing to avail themselves of this system should consult in advance with a supervisor in their educational field and then expressly state their wishes in their application for admission.

14. About the Supplying of Personal Information Related to the Examination

Following a request from the applicant, the Graduate School of Advanced Integration Science will supply the applicant with a breakdown of his/her results for a month period from the following week of the announcement of the examination results. It may not be requested by a proxy since this is personal information.

The Admission Ticket for Examination must be shown when this information is requested. Without this ticket, the information will not be given to the applicant.

15. Procedure for Judging the Applicant's Qualification to take the Entrance Examination

Applicants who would meet the Required Qualification (6), (7) or (8) need another procedure in advance as follows. Documents listed below are required to submit so that applicants are judged whether they are qualified to take the entrance examination, by the Graduate School of Advanced Integration Science.

Please download and use the documents of **I**, **E**, **J** and **H** from the Graduate School's website.
